Prevents eye and skin irritations	✓	✓	✓	✓
No risk of pool surface and equipment staining and corrosion	✓	—	✓	—
Easy to retro fit (one device fully assembled)	✓	—	✓	—

Complete purification

A chemical-free process designed to eliminate all bacteria and viruses the way nature intended.

Gentle for you

Eliminate unwanted side effects such as sore eyes, itchy skin and discoloured hair.

No nasty smells

You'll never need to scrub your skin or swimwear after taking a swim, ever again.

Chemical reduction

Do away with harsh chemicals. Swim in water with chlorine levels similar to your household tap.

Low maintenance

Running costs are reduced via greater efficiency, long lamp life and no need to invest in harsh chemicals.

Natural by design

Known as Green Chemistry, our powerful sterilisation is superior to the effect of boiling water.

Why Quantum Purity?

Second to none. Combines state of the art Photocatalytic & Hydroxyl Radical technology to form Nature's Silver Bullet.

With a wide range of products available on the market that offer a variety of technologies to sanitise swimming pool water, how do you decide what method is best for you?

The table below identifies some key players including chlorine, ozone, hydroxyl radicals and Photocatalytic Oxidisation at the top, as the strongest and most effective sterilisation agents in existence.

Installation Guide

Installed in under 60 minutes!

Integrates into all existing pools

Dimensions (mm)

Model options

All Quantum units are supplied complete with flow sensor, analogue lamp life indicator and reset switch.

Product code	Lamp output	Max pool volume
THERAQ6055	55W	65m ³
THERAQ6110	110W	130m ³
